

BULL BASIN OUTFITTERS

Bull Basin Outfitters
Mt Outfitter # 26839
7160 Lower Miller Creek Road
Missoula, Mt 59803

GENERAL HUNT INFORMATION

For your benefit please take time to review the following information regarding your upcoming hunt. If you have any questions or need additional information please contact us.

FLYING HERE

Book your flight to Bozeman International Airport. If you are flying a private jet. You can fly into Livingston.

DRIVING HERE

If you plan on driving here we are located by the town of Livingston Montana. Let us know if you are driving and we can give you detailed directions to where you will be staying. Plan to arrive in the late afternoon on the day before your hunt starts.

WHAT WE PROVIDE

Included in your hunt cost is transportation to and from your hotel or airport, trophy care, guide service and we provide all meals and lodging during your scheduled hunt while you are hunting with us. Towels, bedding, assorted snacks and soft drinks are also included.

Liquor Policy

We do not and cannot provide our clients Alcohol. Liquor is not included but you can get it in town once you arrive.

PHONE USE AND INTERNET ACCESS

We have wireless internet access if you have a laptop you need to use. Cell phone service is pretty good in our area. { Only at Willow Creek Ranch. }

WOUND POLICY

We do have a wound policy. Any animal hit/wounded is considered a harvested animal and immediately voids one of your tags- no questions asked.

TROPHIES & MEAT

Upon harvesting of a trophy we will prepare your meat for the local processor. We will store your head, capes and meat in our meat cooler until we can get it to the game processor where your meat will be cut up and frozen for you. The meat processor can arrange Fed Ex for your meat if needed at additional costs. For those of you that would like to take home meat with you, bring a cooler or you can purchase one here at a hardware store. If you do not want to take the meat home with you we can donate it to a local person or agency here that could use it. The cost of the processing will still be your responsibility. We recommend bringing your gear in a duffel bag, depending on how much gear you have, the contents of your duffel can be added to your cooler or tote giving you one less piece of luggage to take home with you. All trophies must be taken home with you when your hunt is over. We have a local taxidermist to do work for our clients if need be. Some antlers may have to be split to fit into tote. We will not ship meat or trophies.

TIPPING

Quite often clients will ask about tipping guides. Gratuities should be based on the effort your guide puts into your hunt, not if you get an animal or how big your animal is. If you are pleased with your guides effort I ask that a minimum tip of \$500 US or 10% of the hunt cost, whichever ever is greater is given per hunter. Please tip the cooks as well, I recommend \$150 US per hunter. They will make sure you are well fed with great home cooked meals. Gratuities are a good portion of the income for people working in the service industry. If you feel you have received exceptional service a larger tip would be greatly appreciated and will show that you really appreciated the persons efforts. Remember this is fair chase hunting and weather conditions, animal activity and your abilities in the field are out of your guides control.

THING TO DO IF YOU TAG OUT EARLY

Our number one focus is to work as a team to give all hunters in camp the best chance at being successful on their hunt. If you are the first one to tag out we encourage you to join your guide in trying to locate animals for the others in camp that are still hunting. If you would rather do some other activities on your own please let us know prior to arriving so we can see what possibilities may be available for you during your hunt time frame.

- 1 Warm Heavy Coat
- 1 Hunters Orange Vest with 400 square inches of Orange

Misc.

I always get asked by clients. “what can I do to be more prepared for my hunt with you?” The two biggest things that I have seen consistently that make the difference between a good hunt and a great hunt. #1. Conditioning and #2. Being able to hit your target. Practice, Practice, Practice. This is most important with Archery Hunters.
